

Exposure Draft

Proposed IFRS® Standards

Property, Plant and Equipment — Proceeds before Intended Use (Proposed amendments to IAS 16)

July 2017

COMMENTS TO THE IASB AND THE AcSB MUST BE RECEIVED BY
OCTOBER 19, 2017

Respondents are asked to email their comment letters (in a Word file) to:
ed.accounting@cpacanada.ca

Please address your comments to:

Rebecca Villmann, CPA, CA,
CPA (Illinois)
Director, Accounting Standards
Accounting Standards Board
277 Wellington Street West
Toronto, Ontario M5V 3H2

This Exposure Draft reflects proposals made by the International Accounting Standards Board (IASB) that the Accounting Standards Board (AcSB) intends to adopt, subject to deliberating comments received, as Canadian generally accepted accounting principles.

Individuals and organizations are invited to send written comments on the Exposure Draft proposals. Comments are requested from those who agree with the Exposure Draft as well as from those who do not.

Comments are most helpful if they relate to a specific paragraph or group of paragraphs. Any comments that express disagreement with the proposals in the Exposure Draft should clearly explain the problem and include a suggested alternative, supported by specific reasoning. All comments received by the AcSB will be available on the website shortly after the comment deadline, unless confidentiality is requested. The request for confidentiality must be stated explicitly within the response.

Highlights

The Accounting Standards Board (AcSB) proposes, subject to comments received following exposure, to incorporate into Part I of the CPA Canada Handbook – Accounting, amendments to IAS 16 *Property, Plant and Equipment*.

IASB Exposure Draft

The International Accounting Standards Board (IASB) recently issued an Exposure Draft, “[Property, Plant and Equipment—Proceeds before Intended Use \(Proposed amendments to IAS 16\)](#)” that is available on the IASB website at www.ifrs.org. The proposed amendments would prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced before the asset is available for use. Instead, an entity would recognize the proceeds from selling such items, and the related production costs, in profit or loss.

The IASB’s Exposure Draft includes a Basis for Conclusions that is not part of this Exposure Draft. The Basis for Conclusions may provide useful information to stakeholders.

Comments requested

The AcSB encourages Canadian stakeholders to respond to the IASB on its Exposure Draft. Specific questions on which the IASB would like input are provided in the Invitation to Comment in its Exposure Draft. The AcSB requests that comment letters be sent directly to the IASB with a copy to the AcSB.

The AcSB would like input from Canadian respondents on the following additional question regarding the proposed amendments:

The IASB has developed the proposed amendments in accordance with its due process for application around the world. Assuming the Exposure Draft proposals are finalized and approved by the IASB in accordance with its due process, do you think that the proposals are appropriate for application in Canada? If not, please specify which aspects of the proposals, and what circumstances, make the accounting requirements proposed in the Exposure Draft inappropriate.

Responses to this additional question should be sent directly to the AcSB.

You may email your comments (in a Word file) to: ed.accounting@cpacanada.ca.

The deadline for responding to the IASB on its Exposure Draft is October 19, 2017. Responses to the AcSB on the additional question set out above are due on the same date.
